High-performance Software solutions

ABNO Softwares International has proven the ability in development of high-performance software solutions. We believe in innovation, best practices, employee recognition and delivering high levels of customer satisfaction.

THE PROMISE:
High Levels Of Customer Satisfaction.

We are respectful to the diverse needs of our customers and recognize the importance of a tailor-made approach. We believe in innovation, best practices, employee recognition and offering value.

Our Goal

To consistently provide an exciting experience in software solutions which contributes to every customer's success, resulting in high levels of satisfaction.

Our Mission

We are committed to offering premium software solutions and services while giving unmatched value to our customers.

Our Vision

We envision to be the global hub for premier software solutions.

Our Solutions

ABN Unisol

www.abnunisol.com

ABN Unisol is designed to optimize every facet of your academic ecosystem. Unisol empowers your institution with personalized learning journeys, streamlined administration, and data-driven insights, fostering a collaborative environment that propels student success and institutional growth.

ABN Genesis

www.abngenesis.com

Unlock the full potential of your business with ABN Genesis, a custom software solution designed to revolutionize the way you do business. ABN Genesis empowers enterprises with unparalleled efficiency, seamless automation, and streamlined workflows, catering to unique business needs.

Jiunge

www.jiunge.com

Discover Jiunge, a revolutionary education management platform offering streamlined solutions for institutions of learning and students. From online applications to seamless fee payment integration with platforms like E-Citizen and Mpesa. Jiunge enhances administrative processes.

Intellimis

www.intellimis.com

Take your business to the next level with Intellimis, a powerful cloud-based ERP solution. Simplify operations, access real-time data, and enhance efficiency across finance, supply chain, HR, project management, CRM and so much more. Transform the way you manage your business with Intellimis ERP

Our Solutions

Delytt

www.delytt.com

A modern POS solution that has been designed to revolutionize the way you operate. Streamline sales, inventory, and customer management through a user-friendly interface, ensuring seamless transactions for your business.

LollaPay

www.lollapay.com

Embrace streamlined transactions, enhanced security, and seamless integration as LollaPay revolutionizes your payment processes. LollaPay opens doors to a future where payments are effortless and tailored to your needs.

Mteja360

www.mteja360.com

Mteja360 is a customer experience management software solution that empowers brands and organizations to unleash the power of real-time feedback, ensuring proactive and personalized service around the clock.

Safiri24

www.safiri24.com

Safiri24 is the ultimate management solution that caters to businesses of all sizes and industries, including transport, fuel station management, member organizations, and security. It offers financial tracking for real-time insights and streamlined revenue collection, inventory tracking, integrated point-of-sale systems, member data management, and real-time tracking and reporting, unlocking the full potential of businesses.

Our Solutions

mFaili
www.mfaili.com

Transform your document management experience with Mfaili - your our All-in-One Smart Document Management Platform. Mfaili revolutionizes document handling with advanced features for document creation and intelligent organization to secure storage and powerful search capabilities. Mfaili enhances productivity and collaboration and ensures your documents are always secure and accessible.

Lango Kuu
www.langokuu.com

Lango Kuu is an integrated visitor verification and identification system for all entry points of a premises. Utilizing advanced biometric recognition, smart IDs, and a mobile app, Lango Kuu ensures secure access for authorized individuals. It streamlines verification, reduces waiting times, improves efficiency, tracks attendance, and manages visitor access enhancing overall security.

ABNO 360
www.abno360.com

ABNO 360 is a single sign-in security solution tailored for ABNO products. It offers secure access to all essential apps and resources via a single sign-in, eliminating multiple passwords. Boosting productivity and security with multi-factor authentication, it simplifies IT administration by centrally managing user access. Scalable to business needs, ABNO 360 ensures efficient and secure operations.

Kazi Finder
www.kazifinder.com

Kazi Finder is a powerful recruitment management platform that streamlines your hiring process. It includes job posting, applicant tracking, interview scheduling, team collaboration, and advanced analytics. Integrated with HR systems like payroll and onboarding, it ensures an efficient, data-driven recruitment experience.

Our Unique Projects

NGOs Coordination Board

The Non-Governmental Organizations Co-ordination Board (NGOCB) is a State Corporation established by the Non-Governmental Organizations Co-ordination Act (Cap 19) of 1990. As a regulator and enabler of the NGO sector in Kenya, NGOCB sought an advanced solution to enhance its operations. The Enterprise Resource Planning (ERP) system deployed at NGOCB, officially sponsored by UNDP under the secretariat of ICT authority and IT governance committee, is a real-time and fully automated solution. This system enables NGOCB to efficiently manage services offered to new and potential NGOs on a single platform, ensuring seamless coordination and effectiveness.

Kenya Export Promotion & Branding Agency

The Kenya Expo Promotion and Branding Agency (KEPROBA) is a State Corporation mandated to implement expo promotion, national branding initiatives, and policies to showcase Kenya's goods and services globally. ABNO Softwares collaborated with KEPROBA to develop a comprehensive electronic platform.
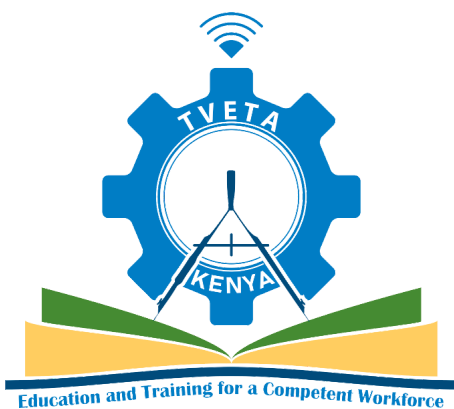

This platform, comprising a web version and a mobile application, serves three key sections: Expo Promotion & Branding, the Agency website, and E-trading. It facilitates exporters to showcase products internationally, enables buyers to place orders conveniently, and provides potential exporters with customized market intelligence for product improvement.

Our Unique Projects

Ajira Digital Portal

Ajira Digital Portal is a key Government-sponsored project designed to address challenges faced by the Kenyan youth. Crafted by ABNO Softwares, this portal offers free online services and infrastructure facilities to over 500,000 youths in the country. Services include training opportunities, job linkages, mentorship, Ajira Centers, Studio Mashinani, and Clubs. The platform has become a vital resource, fostering skill development and employment opportunities for the youth.

TVETA MIS

Technical and Vocational Education and Training Management Information System

Hosted by the TVET Authority, delegated by the Kenyan Government to regulate Technical and Vocational institutes and trainers, the TVETA MIS serves approximately 2,200 institutions and 21,000 trainers across Kenya. ABNO Softwares crafted a comprehensive Management Information System that encompasses key services such as application, registration, licensing, and accreditation of individuals and institutes. This system plays a pivotal role in streamlining administrative tasks within the TVET sector in the country.

Our Unique Projects

DOSHs

Under the support of the Government of Kenya and World Bank funding for the Horn of Africa Gateway Development Project (HoAGDP), ABNO Softwares collaborated with the Kenya National Highways Authority (KeNHA) to implement an automated Occupational Safety and Health Management Information System (OSHMIS) for DOSHs. This initiative aims to enhance workplace safety through real-time data, accurate record-keeping, efficient resource allocation, improved compliance, and streamlined processes. The OSHMIS project includes essential features such as workplace registration, accident investigation, legal proceedings management, and more, demonstrating a proactive step towards ensuring worker well-being.

TVET CDACC

Within the TVET landscape, TVET CDACC plays a pivotal role in curriculum development, assessments, and competence certification for training institutions. At ABNO Softwares, we continue to strive to drive excellence in TVET education, creating a lasting impact on curriculum development, assessment, and the certification process.

In alignment with Kenya's adoption of Competency-Based Education and Training (CBET), we were tasked with providing a comprehensive Enterprise Resource Planning (ERP) system and Competency-Based Assessment (CBA) portal. This system streamlines administrative tasks, manages student information, handles financial aspects, and aids decision-making at TVET CDACC, contributing to the excellence and innovation in TVET education in Kenya.

Why Us?

A Significant thing to note is that all organizations experience periods where they need to reinvent themselves to spur growth and performance. Having the right choice of software solution and innovative partner to help through this process is critical to the long-term success of your organization. We are the best choice and here are our competitive advantages that allow us to offer better quality of software solutions to our customers

- Our un-matched capability to deliver tailor-made solutions that are several cuts above the ordinary.

- Perpetual licensing regime meaning unlimited number of users once installed

- Proven experience in projects with all degrees of complexity

- Cost-competitive software solutions

- Skilled and committed personnel

- Delivery on-time and within budget

- Support Available 24/7
